

DW2451WS/ADA

CARACTERÍSTICAS

Water softener adjusts the amount of salt used per wash to the hardness level of your water

Cove's new advanced wash system drives three powerful spray arms, 43 spray jets, and a fine-mesh filter that removes food and grease and circulates clean water

Every glass, dish, and utensil comes out spotless and dry thanks to the hot rinse and fan assist

Whisper-quiet operation means you can keep the conversation flowing while running a load of dishes

Quality and aesthetics meet in a striking stainless-steel interior with a clean, fastenerless design

12 wash cycles and 6 add-on options can be mixed and matched, allowing you to personalize cleaning to your needs

Highly adjustable offering infinite interior variations depending on your dishwashing needs; height-adjustable middle rack and fold-down tines accommodate large pots and tall items

Loading and unloading is easy with interior LED lights that aid in visibility

Stainless or panel-ready, in handle or handleless designs, complement any décor and coordinate perfectly with other Sub-Zero and Wolf appliances

Dishwasher disappears into the kitchen with hidden control panel and discreet status light

With our convenient Owner's App, you can remotely start or monitor a cycle, receive alerts when rinse aid is low—even set up auto-replenishment

El sistema de protección contra fugas de Cove ofrece tranquilidad en el raro caso de que se produzcan fugas. En caso de se produzca una fuga, el sensor de conductividad situado en la base de la unidad la detecta y detiene de manera automática el ciclo en curso.

- Descalcificador de agua

ESPECIFICACIONES DEL PRODUCTO

Modelo	DW2451WS/ADA
Dimensiones	23 5/8"W x 32 1/2"H x 23 1/4"D
Espacio de la puerta	25"
Nivel de sonido	41 dBA (Model and cycle/option dependent)
Suministro eléctrico	115 VAC, 60 Hz
Servicio eléctrico	15 amp dedicated circuit
Receptáculo	3-prong grounding-type
Longitud del cable	6'
Conexión de agua	5' braided tubing with 3/8" female compression fitting
Conexión de drenaje	5' (1.5 m) corrugated tubing
Presión de las tuberías	30–140 psi

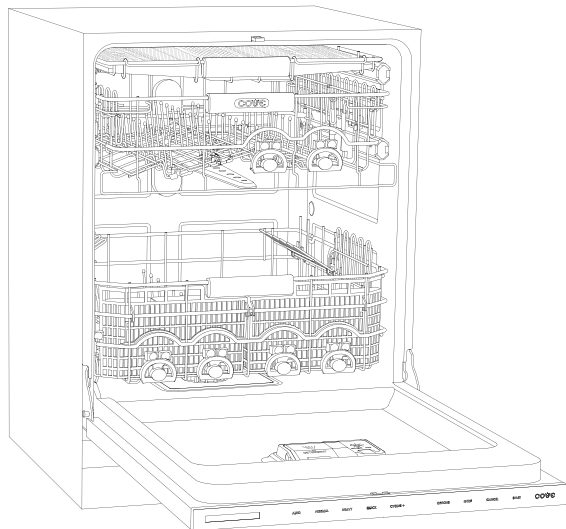

INSTALACIÓN ELÉCTRICA PLOMERÍA

COVE OPENING WIDTH Cove dishwashers accommodate varying opening widths. A 23 5/8" (60 cm) width provides minimum reveals and is ideal for new construction. A 24" width is also common; however, reveals for a 24" opening will be larger than the reveals for a 23 5/8" opening unless the panel width is adjusted accordingly. 24" and 60 cm stainless steel panels are available and must be specified accordingly.

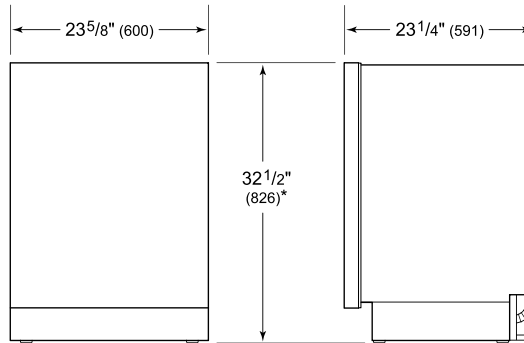

PANEL SPECIFICATIONS For complete panels specifications including width/height, weight requirements and thickness requirements visit subzero-wolf.com/reveal.
